QOMEX 2026

JUNE 29 - JULY 3, 2026, CARDIFF, UK

"Quality of Multimedia Experience meets Machine Intelligence"

CALL FOR PAPERS

QoMEX will gather top experts from both academia and industry to showcase and discuss the latest research on multimedia quality, Quality of Experience (QoE), and User Experience (UX). By doing so, it will promote excellence in multimedia technology development, aiming to enhance user well-being, while encouraging collaboration among diverse multidisciplinary communities

Prospective authors are invited to submit full papers or short/demo papers to the general track, dataset and tools track, or to special sessions.

TOPICS OF INTEREST:

- AI-Empowered QoE
- Innovative Approaches and Paradigms
- QoE Foundations and Methodologies
- Technological Innovations and QoE
- Human Factors
- Specific Applications and Use Cases

SPECIAL SESSIONS

SS1: Semantic Quality Assessment for Multi-Modal Intelligent Systems
SS2: Beyond Quality: Integrating Ethical Dimensions in QoE Research

GRAND CHALLENGES

GC1: Video Quality Assessment for Asymmetric Encoded Videos
GC2: Expert-Level Image Aesthetics Perception Challenge
GC3: Low-light Enhanced Image Quality Assessment Challenge

*Extended versions of Grand Challenge papers will be invited to a special issue of the Signal Processing: Image Communication (Elsevier) journal.
